Issuing Date 15-Dec-2014

Revision date 18-Feb-2022

## **1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING**

Product identifier Product Name

Consolideck® ColorHard Desert Sand

Other means of identification Product Code(s)

Recommended use of the chemical and restrictions on useRecommended useRestricted to professional users.Uses advised againstNo information available

46480

Details of the supplier of the safety data sheet Manufacturer Address PROSOCO, Inc. 3741 Greenway Circle Lawrence, Kansas 66046 Emergency telephone number 8:00 AM – 5:00 PM CST Monday-Friday NON-BUSINESS HOURS (INFOTRAC)

785-865-4200 800-535-5053

# 2. HAZARDS IDENTIFICATION

## **Classification**

Specific target organ toxicity (repeated exposure)

## Label elements

Warning

Hazard statements

May cause damage to organs through prolonged or repeated exposure

Image: Contract of the state damage of th

## Precautionary Statements - Prevention Do not breathe dust/fume/gas/mist/vapors/spray

**Precautionary Statements - Response** Get medical advice/attention if you feel unwell

## **Precautionary Statements - Disposal**

Category 2

Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC) Other information • May be harmful if swallowed

# **3. COMPOSITION/INFORMATION ON INGREDIENTS**

| Chemical name       | CAS No.    | Weight-% | Trade Secret |
|---------------------|------------|----------|--------------|
| Iron Oxide (yellow) | 51274-00-1 | 40 - 70  | *            |
| Water               | 7732-18-5  | 15 - 40  | *            |
| Iron Oxide (black)  | 1317-61-9  | 5 - 10   | *            |
| Ethylene Glycol     | 107-21-1   | 1 - 5    | *            |
| Silicon Dioxide     | 7631-86-9  | 1 - 5    | *            |

\* The exact percentage (concentration) of composition has been withheld as a trade secret.

# 4. FIRST AID MEASURES

## **Description of first aid measures**

| General advice                                                             | If symptoms persist, call a physician.                                                                                          |  |
|----------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|--|
| Eye contact                                                                | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If symptoms persist, call a physician. |  |
| Skin Contact                                                               | Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician.               |  |
| Inhalation                                                                 | Remove to fresh air. If symptoms persist, call a physician.                                                                     |  |
| Ingestion                                                                  | Do NOT induce vomiting. Rinse mouth. Drink plenty of water. Call a physician or poison control center immediately.              |  |
| Self-protection of the first aider                                         | Use personal protective equipment as required.                                                                                  |  |
| Most important symptoms and effe                                           | s, both acute and delayed                                                                                                       |  |
| Symptoms                                                                   | May be harmful if swallowed. May cause irritation.                                                                              |  |
| Indication of any immediate medical attention and special treatment needed |                                                                                                                                 |  |
| Note to physicians                                                         | Treat symptomatically.                                                                                                          |  |

# 5. FIRE-FIGHTING MEASURES

#### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable Extinguishing Media Caution: Use of water spray when fighting fire may be inefficient.

## Specific hazards arising from the chemical

No information available.

## Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

# 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

| Personal precautions                                         | Use personal protective equipment as required. Avoid contact with eyes and skin.                                 |  |  |
|--------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|--|--|
| Environmental precautions                                    |                                                                                                                  |  |  |
| Environmental precautions                                    | Do not flush into surface water or sanitary sewer system. See Section 12 for additional ecological information.  |  |  |
| Methods and material for containm                            | ent and cleaning up                                                                                              |  |  |
| Methods for containment                                      | Prevent further leakage or spillage if safe to do so.                                                            |  |  |
| Methods for cleaning up                                      | Soak up with inert absorbent material. Pick up and transfer to properly labeled containers.                      |  |  |
| 7. HANDLING AND STORAGE                                      |                                                                                                                  |  |  |
| Precautions for safe handling                                |                                                                                                                  |  |  |
| Advice on safe handling                                      | Handle in accordance with good industrial hygiene and safety practice.                                           |  |  |
| Conditions for safe storage, including any incompatibilities |                                                                                                                  |  |  |
| Storage Conditions                                           | Keep out of the reach of children. Keep container tightly closed. Keep in a dry, cool and well-ventilated place. |  |  |
| Incompatible materials                                       | Strong oxidizing agents. Incompatible with strong acids and bases.                                               |  |  |
|                                                              |                                                                                                                  |  |  |

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

## Control parameters

#### Exposure Guidelines

| Chemical name   | ACGIH TLV                            | OSHA PEL                                 | NIOSH IDLH                   |
|-----------------|--------------------------------------|------------------------------------------|------------------------------|
| Ethylene Glycol | STEL: 50 ppm vapor fraction          | (vacated) Ceiling: 50 ppm                |                              |
| 107-21-1        | STEL: 10 mg/m <sup>3</sup> inhalable | (vacated) Ceiling: 125 mg/m <sup>3</sup> |                              |
|                 | particulate matter, aerosol only     |                                          |                              |
|                 | TWA: 25 ppm vapor fraction           |                                          |                              |
| Silicon Dioxide |                                      | TWA: 50 µg/m <sup>3</sup> excludes       | IDLH: 3000 mg/m <sup>3</sup> |
| 7631-86-9       |                                      | construction work, agricultural          | TWA: 6 mg/m <sup>3</sup>     |
|                 |                                      | operations, and exposures that           |                              |
|                 |                                      | result from the processing of            |                              |
|                 |                                      | sorptive clays                           |                              |
|                 |                                      | (vacated) TWA: 6 mg/m <sup>3</sup> <1%   |                              |
|                 |                                      | Crystalline silica                       |                              |
|                 |                                      | TWA: 20 mppcf                            |                              |
|                 |                                      | : (80)/(% SiO2) mg/m <sup>3</sup> TWA    |                              |

NIOSH IDLH Immediately Dangerous to Life or Health

Other information

Vacated limits revoked by the Court of Appeals decision in AFL-CIO v. OSHA, 965 F.2d 962 (11th Cir., 1992).

## Appropriate engineering controls

Engineering Controls None under normal use conditions.

#### Individual protection measures, such as personal protective equipment

Eye/face protection

Wear safety glasses with side shields (or goggles).

| Skin and body protection       | Wear protective gloves and protective clothing.                                                                                                                                                                                                                                                                         |  |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Respiratory protection         | If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations. |  |
| General Hygiene Considerations | When using do not eat, drink or smoke. Wash contaminated clothing before reuse.                                                                                                                                                                                                                                         |  |

# 9. PHYSICAL AND CHEMICAL PROPERTIES

# **10. STABILITY AND REACTIVITY**

## Reactivity

No data available

## **Chemical stability**

Stable under recommended storage conditions.

#### Possibility of hazardous reactions

None under normal processing.

## **Conditions to avoid**

None known based on information supplied.

## **Incompatible materials**

Strong oxidizing agents. Incompatible with strong acids and bases.

## Hazardous decomposition products

None under normal use conditions.

# **11. TOXICOLOGICAL INFORMATION**

## Information on likely routes of exposure

| Product Information | May be harmful if swallowed May cause irritation            |
|---------------------|-------------------------------------------------------------|
| Inhalation          | Avoid breathing vapors or mists. May be harmful if inhaled. |
| Eye contact         | Avoid contact with eyes. May cause irritation.              |
| Skin Contact        | Avoid contact with skin. May cause irritation.              |
| Ingestion           | Do not taste or swallow. May be harmful if swallowed.       |

## **Component Information**

| Chemical name                   | LD50/Oral           | LD50/Dermal           | Inhalation LC50      |
|---------------------------------|---------------------|-----------------------|----------------------|
| Water<br>7732-18-5              | > 90 mL/kg (Rat)    |                       |                      |
| Iron Oxide (black)<br>1317-61-9 | > 10000 mg/kg (Rat) |                       |                      |

| Target organ effects                                                                       | kidney.                                                                                                |  |  |  |
| Aspiration hazard                                                                          | No information available.                                                                              |  |  |  |

May be harmful if swallowed. May cause irritation.

## Numerical measures of toxicity - Product Information

## Unknown acute toxicity

## The following values are calculated based on chapter 3.1 of the GHS document .

| ATEmix (oral)                 | 4143 mg/kg        |
|-------------------------------|-------------------|
| ATEmix (dermal)               | 104776 mg/kg mg/l |
| ATEmix (inhalation-dust/mist) | 55 mg/l           |
