

Living Building Challenge

RED LIST REVIEWED PRODUCTS

PROSOCO has reviewed the chemical content of the following products to verify conformance with Living Building Challenge 2.1/2.2/3.0/3.1/4.0 Materials Petal Red List. This document serves as verification that these listed products do not contain intentionally added chemicals present on the Red List.

PROSOCO certifies that these products comply with all known regulatory VOC limits incorporated by reference in the Living Building Challenge, LEEDv4, WELL and CALGreen. Select products marketed primarily for interior use have been evaluated for emissions in conformance with the CDPH Standard Method (CA 01350) v1.2-2017 and are third-party certified by SCS Global under the SCS Indoor Advantage Gold program.

Declare Red List Free and LBC Approved status simplifies the Living Building Challenge submittal process – only the Declare ID number is required. For a current list of Red List Free and LBC Red List Approved products, visit <https://declare.living-future.org/> PROSOCO will provide written verifications on request for Red List reviewed products that do not currently carry Declare labels.

DIV. 3

CONCRETE FLOORING FINISHES, COATINGS & STAINS

Concrete Dustproofers/Densifiers:

Consolideck® LS®
Consolideck® LS/CS®
Consolideck® Blended Densifier
Consolideck® Grind-N-Fill

Concrete Decorative Stains:

Consolideck® ColorHard- All Colors

Protective Coatings:

Consolideck® PolishGuard
Consolideck® GuardEXT
Consolideck® LS Guard (Verification)
Consolideck® Concrete Protector SB (Verification)

DIV. 7

MASONRY PROTECTIVE COATINGS

Water Repellents:

Sure Klean® Weather Seal Siloxane PD (Verification)
Sure Klean® Weather Seal Siloxane WB Concentrate (Verification)
Sure Klean® Weather Seal Interior Masonry Dustproofers (Verification)
PROSOCO® Saltguard® WB (Verification)

DIV. 7

AIR & WATER BARRIER SEALANTS & COATINGS

Primary Permeable Fluid-Applied Air Barriers:

R-Guard Cat 5®
R-Guard Cat 5® Rain Screen
R-Guard Spray Wrap MVP (Verification)
R-Guard Spray Wrap Rain Screen (Verification)

Liquid Flashing Membrane:

R-Guard FastFlash®
R-Guard Joint & Seam Filler
R-Guard AirDam
R-Guard PorousPrep

PROSOCO is conducting an ongoing review of building envelope, concrete finishing and concrete/masonry protective products and will modify this list over time. Our process involves discussions through the supply chain coupled with direct control over raw materials sourcing and quality control at our Lawrence, Kansas manufacturing facility. The Red List represents a group of worst-in-class chemicals. Conformant products may include other federal, state, or internationally regulated and/or listed chemicals. Learn more about the ILFI Red List at <https://living-future.org/red-list/>
