**Overview of Testing Conducted By PROSOCO, Inc.  
For Building Stone Products, Inc., Lemont, IL  
Project No. 0412-18**

Six integrally colored CSMU's each with a "smooth-face" and a "rock-face", all with small and fine aggregate were submitted for testing to PROSOCO Inc.'s Testing Laboratory with a request to determine new construction cleaning, water repellent products and graffiti control. **New construction cleaning** was performed to evaluate effective removal of excess mortar, and related new construction soiling. **Protective Water Repellent** testing was performed to evaluate water repellency provided by PROSOCO's water repellents. **Graffiti Control** testing was evaluated to determine which PROSOCO product(s) are most effective at repelling and facilitating the removal of graffiti.

The attached report provides information about the PROSOCO products tested and descriptions of the test methods. The report includes test results as well as conclusions and recommendations. Recommendations are also provided in the chart below.
