

**Overview of Testing Conducted By PROSOCO, Inc.
Michigan Certified Concrete Products, Inc., Grand Rapids, MI
Project No. 0508-19**

Six types of full-size integrally colored CMU's, each with a split, smooth and ground-face side, and 1 type of half-size, smooth-face, integrally colored CMU with overspray pigment, all with large, small and fine aggregate were submitted for testing using PROSOCO's new construction cleaning, water repellent and graffiti control products. **New construction cleaning** was performed to evaluate effective removal of excess mortar, and related new construction soiling. **Protective Water Repellent** testing was performed to evaluate water repellency provided by PROSOCO's water repellents. **Graffiti Control** testing was evaluated to determine which PROSOCO product(s) are most effective at repelling and facilitating the removal of graffiti. The attached report provides information about the PROSOCO products tested and descriptions of the test methods. The report includes test results as well as conclusions and recommendations. Recommendations are also provided in the chart below.

Apply all products in accordance with the manufacturer’s recommendations provided on container labels and product data sheets. On-site testing should be conducted to determine the most appropriate cleaning, water repellent, or stain repellent products and procedures for a particular project. See product literature for additional application and safety information.
