## *Natural Stone Veneers International Inc.*

*Project No. 0809-07 PTP*

Twenty types of natural stone samples were submitted to AMT Laboratories by PROSOCO, Inc. with a request to determine if application of the products evaluated will produce any surface alterations during new construction cleaning operations. Additionally, the effectiveness of water repellents, color and sheen enhancement, and graffiti repellent products suitable for natural stone were evaluated. **New Construction Cleaning** was performed to evaluate the effectiveness of the selected PROSOCO products at removing excess mortar, and related new construction soiling, while limiting potential surface alterations to the finish. **Protective Water Repellent** testing was performed to evaluate which PROSOCO water repellent(s) are most effective at providing protection from wind driven rain. **Color and Sheen Enhancement** was evaluated to determine which PROSOCO product(s) are most effective at providing color and/or sheen enhancement to the submitted samples. **Graffiti Control** products were evaluated for its ability to repel and remove graffiti from the submitted samples.

The attached report provides information about the PROSOCO products tested and descriptions of the test methods. The report includes test results as well as conclusions and recommendations. Recommendations are also provided in the chart below.

**Recommendations**

Sample	New Construction Cleaning Type S Mortar, (14 day cleaning)	Protective Water Repellents	Color and Sheen Enhancement	Graffiti Control
<b>“Cobblestone”</b>	Sure Klean® Vana Trof® (1:8) or Enviro Klean® Safety Klean® (1:3)	* Paver Kare® Deep Sheen  Paver Kare® Deep Sheen WB  * Stand Off® Color Enhancer  Stand Off® Color Enhancer WB  * Stand Off® SLX100™ Water & Oil Repellent  * Sure Klean® Weather Seal Natural Stone Treatment  Sure Klean® Weather Seal Natural Stone Treatment WB  * Sure Klean® Weather Seal SL100  Stand Off® Stone, Tile & Masonry Protector (STMP)  * Sure Klean® Weather Seal Blok-Guard® & Graffiti Control	<b><u>Color Enhancement</u></b>  * Paver Kare® Deep Sheen or * Stand Off® Color Enhancer or Stand Off® Color Enhancer WB  <b><u>Sheen Enhancement</u></b> * Paver Kare® Deep Sheen	<b><u>Graffiti Repellents</u></b> * Sure Klean® Weather Seal Blok-Guard® & Graffiti Control  <b><u>Graffiti Removers</u></b> Enviro Klean® SafStrip® or Sure Klean® Fast Acting Stripper or Defacer Eraser® Graffiti Wipe

\* **NOTE:** Consolideck® Saltguard®, Paver Kare® Deep Sheen, Paver Kare® Paver Enhancer, Stand Off® Color Enhancer, Stand Off® Limestone & Marble Protector, Stand Off® SLX100™ Water & Oil Repellent, Sure Klean® Weather Seal Blok-Guard® & Graffiti Control, Sure Klean® Weather Seal Natural Stone Treatment, and Sure Klean® Weather are manufactured and marketed in compliance with VOC regulations. These products may not be suitable for sale in states and districts with more restrictive regulations.

The ability of a water repellent treatment to prevent the ingress of water is affected by a variety of factors. Therefore, on-site testing should be carried out for all installations with the recommended systems to ensure job site workmanship yields equivalent results.

Apply all products in accordance with the manufacturer's recommendations provided on container labels and product data sheets. On-site testing should be conducted to determine the most appropriate cleaning, water repellent, or stain repellent products and procedures for a particular project. See product literature for additional application and safety information.
