 Project No. 2105-02

Twenty-six types of concrete block and three types of concrete pavers were submitted to AMT Laboratories by PROSOCO, Inc. with a request to determine the most appropriate new construction cleaner. Additionally, stain removal, color and sheen enhancement, water repellent, graffiti resistant, and stain resistant products suitable for concrete block and/or pavers were evaluated.

The laboratory report (2105-02 PTP Tileco Inc.) provides information about the PROSOCO® products tested and descriptions of the test methods. The report includes test results as well as conclusions and recommendations. Recommendations are also provided in the chart below.
