

# A DENSIFIER MADE FOR TYPE 1L CEMENT

**PROSOCO BD1**, designed for steel-troweled or burnished concrete, penetrates deeply and reacts swiftly to form a harder, denser surface. This specialized silicate blend is specially formulated and tested to enhance performance on both traditional and Type 1L cement mixes. BD1 is ideal for freshly troweled, "green" concrete, as well as existing floors of any age. It dustproofs floors without contributing to surface ASR.

## EASY

Easy one-step application. No scrubbing or flushing required. Most floors can be opened to traffic with one hour of treatment.

## EFFECTIVE

Unique formulation offers superior performance when used on Type 1L cement mixes.

## VERSATILE

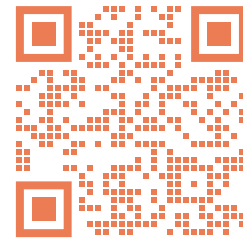

Improves performance, appearance and light reflectance of new or old concrete. Non-flammable. Non-toxic. Low-odor.

# DENSIFY & DUSTPROOF

- Will not contribute to surface crazing. Combats surface ASR.
- Will not absorb water or contribute to floor sweating.
- Breathable and UV-stable. Will not yellow, discolor, peel or flake.

WHICH DENSIFIER IS RIGHT FOR YOU? 

# WE ARE WHERE YOU ARE.

**PROSOCO's nationwide network** of field reps and technical advisers from coast to coast are here to help solve your biggest problems, your smallest problems and everything in between.
